

READING VISUAL ARTS – SIMPLE REVIEWER

This reviewer explains each topic in a more detailed but still simple way, like a tutor talking to a student. The goal is to help you understand the ideas, not just memorize words.

1. Spoliarium

- A huge and famous painting made by Juan Luna.
- It shows dead gladiators being dragged after losing in a fight.
- The painting looks dark, sad, and painful.
- Juan Luna used the painting to symbolize how Filipinos suffered during Spanish colonization.
- It became a symbol of bravery and patriotism.
- This painting won an award in Spain, making Filipinos proud.

Easy idea: The dead gladiators represent Filipinos being treated unfairly by colonizers.

2. Oblation

- A statue made by Guillermo Tolentino.
- Seen in UP (University of the Philippines).
- Symbol of offering yourself to serve the country.

3. Genesis

- Means “beginning” or “creation.”
- In art, it can talk about how life or the world started.

4. Photography

- The art of taking pictures using a camera.
- It captures memories, people, and places.

5. Camera Obscura

- An old invention that became the foundation of modern cameras.
- The name means “dark room.”
- Light enters through a tiny hole into a dark box or room.
- The light creates an upside-down image on a wall or surface.
- Artists used it before to help them draw realistic pictures.
- Even though it cannot save photos, it helped people understand how cameras work.

Easy idea: It works like your eye. Light enters and forms an image.

6. Daguerreotype Camera

- One of the first cameras invented.
- Creates pictures on silver plates.
- Photos take a long time to develop.

7. Emulsion Plates

- Glass plates coated with chemicals.
- Used in early photography to capture images.

8. Dry Plates

- Improved version of emulsion plates.
- Easier and faster to use.

9. Celluloid Roll Film

- Flexible film used in cameras.
- Made photography easier and portable.

10. The Camera

- A device used to take photos or videos.
- Captures light to create images.

11. Polaroid

- A camera that prints pictures instantly.
- Popular for quick photos.

12. SLR Cameras

- SLR means Single Lens Reflex.
- A professional-type camera.
- Lets you see exactly what the lens sees.

13. Digital Cameras

- Cameras that save photos digitally.
- No film needed.

14. Composition

- Composition is how you arrange things in a picture.
- It helps guide the viewer's eyes.
- A good composition makes a photo look balanced, clean, and interesting.
- Photographers think about where to place people, objects, light, and background.
- Bad composition can make photos look messy or confusing.

Example: If you take a picture of a person, placing them in a good spot instead of the exact center can make the photo more beautiful.

15. Aperture

- Aperture is the opening inside the camera lens.

- It controls how much light enters the camera.
- Think of it like your eye pupil.
- In a dark place, your pupil becomes bigger to let more light in. Aperture works the same way.

Small aperture:

- Less light enters.
- More background is clear.

Big aperture:

- More light enters.
- Background becomes blurry.
- Good for portraits.

Easy idea: Aperture controls light and background blur.

16. Shutter

- The shutter controls how long the camera lets light enter.
- It opens and closes very quickly.

Fast shutter speed:

- Stops action.
- Good for sports or running.
- Photo looks frozen.

Slow shutter speed:

- Captures movement.
- Good for waterfalls or light trails.
- Can make moving objects blurry.

Easy idea: Shutter controls motion in photos.

17. ISO

- ISO controls how sensitive the camera is to light.
- It helps brighten dark photos.

Low ISO:

- Cleaner and sharper photo.
- Best in bright places.

High ISO:

- Brighter photo.
- But can make the photo grainy or noisy.
- Used in dark places.

Easy idea: ISO controls brightness and image quality.

18. Rule of Thirds

- A photography rule used to make photos look better.
- Imagine your picture divided into 9 equal boxes.
- Instead of putting the subject in the center, place it on the lines or corners.
- This makes the image more balanced and natural.

Example: If taking a sunset photo, place the horizon on the top or bottom line, not in the middle.

Easy idea: Do not always place the subject at the center.

19. Digital Arts

- Art made using technology like computers, tablets, or phones.
- Artists use software to draw, paint, edit photos, animate, or create 3D models.
- Digital art is common in games, movies, advertisements, and social media.
- Unlike traditional art, mistakes can easily be erased or edited.

Easy idea: Digital art is art made using gadgets and software.

20. The Amiga

- An old computer used for digital art and animation.
- Popular in the 1980s.

21. Digital Painting and Drawing

- Creating art using tablets or computers.
- Like drawing on paper, but digital.

22. Pixel Art

- Art made using tiny squares called pixels.
- Common in old video games.

23. Digital Photography and Photo Manipulation

- Editing or improving photos using software.
- Can change colors, effects, or backgrounds.

24. Vector Painting

- Art made using lines and shapes.
- Can be resized without becoming blurry.

25. 3D Modeling

- The process of creating 3D objects using a computer.
- Artists make characters, buildings, cars, and many other objects.
- These models can be viewed from different angles.

- Used in video games, movies, architecture, and animation.

Example: A 3D artist can create a game character before animating it.

Easy idea: 3D modeling is building digital objects with height, width, and depth.

26. 3D Sculpting

- Making digital sculptures in 3D.
- Like shaping clay on a computer.

27. 2D Animation

- Animation made using flat drawings.
- Characters only have height and width.
- Frames are shown quickly to create movement.
- Common in old cartoons and anime.

Examples: Tom and Jerry, old Disney cartoons.

Easy idea: 2D animation looks flat like drawings on paper.

28. 3D Animation

- Animation made using 3D computer models.
- Characters and objects look more realistic.
- They have height, width, and depth.
- Used in modern animated movies and games.

Examples: Toy Story, Frozen, and many Pixar films.

Easy idea: 3D animation looks more real and solid compared to 2D.

29. Digital Installation Art

- Art using technology, sounds, lights, and screens.
- Often interactive.

30. Artificial Intelligence Art

- Art created with the help of Artificial Intelligence or AI.
- A person types a description called a prompt.
- The AI creates an image based on the description.
- AI can help artists make ideas faster.
- Some people use AI for posters, designs, and concept art.

Easy idea: AI art is art made with the help of smart computer programs.

FAMOUS FILIPINO ARTISTS

31. Juan Luna

- Famous Filipino painter.
- Painted Spoliarium.
- National hero in arts.

32. Felix Resurreccion Hidalgo

- Filipino painter and friend of Juan Luna.
- Known for beautiful and emotional paintings.

33. Fernando Amorsolo

- Known as the “Grand Old Man of Philippine Art.”
- Famous for bright and beautiful paintings.
- He often painted Filipino farmers, provinces, nature, and daily life.
- His paintings usually show sunlight and peaceful scenes.
- He made Filipino culture look warm and beautiful.

Easy idea: Amorsolo painted happy and bright Filipino life scenes.

34. Vicente Manansala

- A famous Filipino painter known for Cubism.
- Cubism is an art style where objects are broken into shapes.
- His paintings combine realism and abstract art.
- He painted Filipino people, markets, and daily life.

Easy idea: His paintings look like they are made from many shapes and angles.

35. Ang Kiukok

- Known for emotional and powerful paintings.
- His artworks often show pain, anger, fear, or suffering.
- He used strong colors and sharp shapes.
- Some paintings show screaming or fighting figures.

Easy idea: His paintings express strong emotions and feelings.

36. Arturo Luz

- Known for simple and clean art designs.
- Uses lines and balance.

37. Benedicto Cabrera (BenCab)

- National Artist for Visual Arts.

- Famous for paintings of Filipino culture.

38. Pacita Abad

- Known for colorful paintings.
- Used stitched and textured art called “trapunto.”

39. Jose T. Joya

- Famous abstract artist.
- Uses strong colors and movement.

40. Carlos “Botong” Francisco

- Known for mural paintings.
- Painted Philippine history and culture.

41. Napoleon Abueva

- Called the “Father of Modern Philippine Sculpture.”
- He created sculptures using wood, stone, metal, and other materials.
- His works can be realistic or modern.
- He helped improve sculpture art in the Philippines.

Easy idea: He made modern sculptures famous in the country.

42. Ronnie del Carmen

- Filipino animator and storyteller.
- Worked on Pixar films like Inside Out.

43. Anina Rubio

- Filipino visual artist.
- Known for modern and creative artworks.

44. Hyacinth Shane Balina

- Filipino digital artist.
- Known for creative digital illustrations.

45. Ruby San Pedro

- Filipino contemporary artist.
- Known for colorful and imaginative art.

46. Hernando Ocampo

- Famous abstract painter.
- Known for bright colors and unique shapes.

47. Anita Magsaysay-Ho

- Famous female Filipino painter.
- Painted Filipino women and rural life.

48. Guillermo Tolentino

- Famous sculptor.
- Made the Oblation statue.

49. Arman Serrano

- Filipino contemporary artist.
- Known for creative modern artworks.

50. Cesar Legaspi

- Known for modernist paintings.
- His works show social issues and city life.

51. Paul Abadilla

- Filipino visual artist.
- Known for modern and creative art styles.

52. Gini Cruz Santos

- Filipino animator.
- Worked for Disney Animation.

53. Rodel Tapaya

- Contemporary Filipino painter.
- Uses myths and stories in his artworks.

54. Manuel Ocampo

- Filipino contemporary artist.
- Known for bold and symbolic paintings.

55. Victorio Edades

- Called the “Father of Modern Philippine Painting.”
- Before him, many paintings were very traditional.
- He introduced modern art styles with darker colors and realistic emotions.
- Some people first disliked his style because it looked different.
- Later, people appreciated his creativity and influence.

Easy idea: He changed Philippine art by introducing modern styles.

56. Nathaniel Alapide

- Filipino digital artist.
- Known for modern digital artworks.

57. Pamela Gotangco

- Filipino artist and illustrator.
- Known for creative visual designs.

QUICK MEMORY TIPS

- Juan Luna = Spoliarium
- Guillermo Tolentino = Oblation
- Fernando Amorsolo = Bright Filipino life paintings
- Napoleon Abueva = Father of Modern Sculpture
- Victorio Edades = Father of Modern Philippine Painting
- BenCab = Filipino culture paintings
- Botong Francisco = Murals and history
- Ang Kiukok = Emotional paintings
- Vicente Manansala = Cubism
- Anita Magsaysay-Ho = Women and rural life

EASY CAMERA REMINDER

- Aperture = controls light opening
- Shutter = controls speed of light
- ISO = controls brightness

EASY ANIMATION REMINDER

- 2D = flat cartoons
- 3D = realistic moving characters

EASY PHOTO COMPOSITION REMINDER

- Rule of Thirds = place subject on the lines, not center always
- Composition = arrangement of objects in photo
